FOREWORD

When the six-volume annotated bibliography on immunofluorescence was published, we assumed that each volume of citations, arranged by subject matter and including an author index, would be used independently. However, many readers have requested a seventh volume indexing the other six by subject and by author. This Supplement is published in response to those requests.

Both indexes are arranged in three columns. The first lists the author or the subject. The second column indicates the pertinent volume (I through VI). The third column shows the pertinent citation, by accession number, in the indicated volume.

The original six volumes were arranged by general subject field as follows:

- I. Bacterial Studies
- II. Viral Studies
- III. Studies of Fungi, Metazoa, Protozoa, and Rickettsiae
- IV. Studies of Animal Physiology
- V. Diagnostic Applications and Review Articles
- VI. Technical Procedures

ABSTRACT

This supplement to the six-volume series of annotated bibliographies provides a ready reference, arranged alphabetically, to all authors cited in the six volumes. It identifies senior authors and indicates precise location for each of the 1,895 citations in the series.

In addition, a general subject index is included. It is arranged alphabetically, by subject, and indicates the volume and citation numbers for each of 65 general subjects with their associated sub-subjects.

SUBJECT INDEX*

Actinomycetales	I	10 - 110	Diagnosis,		
procedures	VI	1700	miscellaneous		
Adenovirus	II	1070 - 1140	applications	V	3020 - 3060
procedures	VI	2430 - 2470	reviews	V	390 - 640
Antibody in situ	IV	2320 - 2440	specific		
Antigen-antibody			applications	V	860 - 3060
complexes	IV	2450 - 2520	Differentiation,		
Antigens, native organ			neoplasms	IV	3700 - 3970
and tissue, origin					
and distribution	IV	2690 - 3060	Enterobacteriaceae	I	1080 - 1820
pathology	IV	3070 - 3330	diagnostic		
Antiserum production	VI	10 - 30	applications	V	1070 - 1420
Arbovirus	II	10 - 160	procedures	VI	2040 - 2170
procedures	VI	2480 - 2580	Erythrocytes	IV	1350 - 1540
Autoimmune disease	IV	890 - 1340			
			Fluorescence, non-		
Bacillaceae	I	120 - 280	specific	VI	400 - 530
diagnostic			Fluorochromes,		
applications	V	860 - 880	properties	VI	1510 - 1540
procedures	VI	1710 - 1770	Fungi	III	10 - 350
Bacteria, diagnostic			diagnostic		
applications	V	860 - 2060	applications	V	2440 - 2540
miscellaneous	I	3230 - 3370	procedures	VI	3930 - 3960
procedures with					
specific application	VI	1700 - 2420	Herpesvirus	II	880 - 1060
Bedsonia			diagnostic		
(Miyagawanella)	I	290 - 370	applications	V	2070 - 2110
diagnostic			procedures	VI	2590 - 2690
applications	V	890 - 920	Histologic techniques	VI	1280 - 1370
procedures	VI	1780 - 1820	Hypersensitivity	IV	2530 - 2680
Flood, cellular					
components	IV	1350 - 1710	Immunology, basic	IV	2320 - 2680
plasma proteins	IV	1720 - 2310	Influenza virus	II	2080 - 2510

13. ABSTRACT This supplement to the six-volume series of annotated bibliographies provides a ready reference, arranged alphabetically, to all authors cited in the six volumes. It identifies senior authors and indicates precise location for each of the 1,895 citations in the series. In addition, a general subject index is included. It is arranged alphabetically, by subject, and indicates the volume and citation numbers for each of 65 general subjects with their associated sub-subjects. ←
